The Ciceronian Society is an interdisciplinary organization that encourages and equips Christian scholars and leaders as they serve the Church.

**We invite proposals for panels, paper presentations, and roundtables for the 2026 conference.**

While our core themes remain tradition, place, and 'things divine,' this year we strongly encourage proposals related to the 250th Anniversary of the U.S. Declaration of Independence. We welcome proposals that celebrate, explore, and critique American politics, history, literature, art, culture, music, film, society, philosophy, architecture, economics, theology, education, public policy, and more.
